Hi. I'm Deberah!

INTERNATIONAL PROFIT-PRODUCING AUTHORITY EMPOWERMENT EXPERT

I'm probably best known for my creative ingenuity, tenacity, and leadership while negotiating the Virgin America deal between **Sir Richard Branson** and **Arnold Schwarzenegger**, for which I received the "Steal of the Year" award, for the deal that never should have happened.

But, that's not the beginning of my story. I grew up in a quiet mid-western town. But my home wasn't so quiet. It was filled with alcoholism, violence, guns, beatings, and screaming rage. But no one knew. On the outside, everything appeared to be idyllic. The fists, guns, and alcohol would come out at night in the house, and by morning, it was as if nothing had ever happened. If this is what life was going to be like, it wasn't for me. I was ready to exit, permanently.

What I Learned Helps You

Fast forward about 10 years, I began using what I learned from those experiences to help my clients: politicians, government agencies, and companies. The results were astounding.

The first company I secretly used my new-found techniques with grew from **\$56,000 to \$13 Million in 5 years.**

What I discovered in my own life and then with the CEOs and teams that I worked with is that most people have a story. Do you?

In 30 years of working with clients, I've learned that those stories are controlling the results you're getting in your business and life today.

NO ONE IN THE WORLD DOES IT LIKE I DO

Yes, I'm an internationally recognized Profit-Producing Business Growth Authority (Who isn't saying that these days!?)

I've worked with U.S. Presidents, like **Ronald Reagan** and **George Bush**, Governors and Members of Congress, and Business Titans, the likes of **Sir Richard Branson**, **David Packard**, **Larry Ellison**, **Tony Robbins**, and many others in 17 countries.

★ **IT'S MY BIG SECRET THAT
MAKES A HUGE DIFFERENCE...** ★

For 40 years, I've been studying and using meta- and quantum physics in my own life and in the lives and businesses of my clients and students.

No one in the world does it like I do.

"Great Leaders are the key to profits!"

Without Deberah, we'd really be in trouble

Our Results – 110% Growth In 10 Months

"We grew our revenue 110% in 10 months using Deberah's Quantum Business Beyond the Spreadsheet Strategies. We're celebrating our success and we're excited. More importantly, we've adopted Deberah's strategies to keep our numbers moving up!"

Leadership Leverage

- ✓ **Leaders should be your greatest asset - But they're not**
Globally, C-level executives identify increasing demand for new and better leaders at all levels of their company as the number 2 threat to business stability and growth, rising 32 percent over previous years. However, only 6 percent of executives believe they have what it takes to solve the leadership gap and only 10 percent have faith in their succession programs. And when it comes to growing Millennial leaders, that confidence drops from 10% to a mere 7%.

Business and Life 360°

- ✓ **You're Under More Pressure Than Ever**
It's lonely at the top. Very lonely. The buck stops with you and so does the stress. You deserve a highly successful business and a great life! This is how you get it.

Quantum Business Beyond the Spreadsheet

- ✓ **What the hell do quantum waves have to do with money, success, and growing a business?**
What if it was easy?
Easy to reach into the quantum field and harness the power of the universe. Could this "Secret Sauce" be what you've been waiting for? Just like you do not have to understand how the electric company "makes" electricity - just how to flip the switch - you do not need to understand the science - just how to make it work for your business and your life. I show you how to flip the switch!

"A combination of real business and practical quantum physics!"

You can have massive success, without sacrificing your health, family, and life!"

CLIENT

This client is an international, multimedia corporation in a market facing significant industry challenges due to declining big media and increasing growth in market share by streaming devices combined with a growing "cut the cord" attitude in the consumer base.

CHALLENGES

- **Revenue Limited To Less Than 10% Of Potential Market:** This company was mired in the "Me We Syndrome™" of traditional marketing, rather than being aware of their ideal buyers. This limited their revenue to less than 10% of their available market.
- **Inability to create new buying relationships.** Their limited process for engaging and courting new and inactive clients, limited their pool of potential new buyers.
- **Lack of systems to manage the flow of new prospects and sort higher value prospects for more personal attention,** creating a need to spend more time, less effectively than with simple (consistently followed) systems in place. The team was overwhelmed, disinterested and stressed. They were also unaware of bottlenecks and "problem points" where sales were either not maximized or lost completely.
- **No sales processes in place. No steps to the sale with coordinated collateral designed to move prospects forward in the process and ultimately to buying.** Treatment of

potential clients was haphazard, with steps missed as they were left to individual actions and memories. They were unaware of what was or was not working, leading to inconsistent client experiences and inconsistent results.

- **Ineffective / Bad Leaders who were very** self-focused and self-promotional, taking credit from team members, creating a dysfunctional, ineffective culture.
- **Unintentional, destructive “leaders”** who held no official leadership position, but through gossip, end-runs and rumors were leading the team in destructive ways.
